PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 1st September 1911.

READ—

Correspondence ending with letter No. 266, dated the 9th November 1910, from the Deputy Commissioner and President of District and Municipal Boards, Mysore District, *in re* the opening of a toll-bar at Yelwal.

No. R. 1384-5—L. R. 484-09-3, DATED BANGALORE, 1ST SEPTEMBER 1911.

ORDER THEREON.—The Mysore-Mercara road consisting of four sections as noted in the margin, being in a very bad condition of repair owing to increase of traffic, the annual repair grant of Rs. 200 a mile had to be raised to Rs. 325 for the first nine miles of the Mysore-Yelwal road and to Rs. 275 for the remaining 39¼ miles with a view to maintain the road always in an efficient state of repair. As the increased grant for the maintenance of the road between Yelwal and the Coorg frontier cannot be met without the opening of an additional toll-gate, Government direct that a toll-bar be established at a convenient point on the main road to Mercara within 5 miles on the west or Coorg side of Yelwal.

Letter No. 11, dated 26th July 1911, from the Superintendent of Revenue Survey and Settlements in Mysore, stating that it will not be convenient to hold the class for the training of Amildars, etc., in survey work for more than two months this year or to re-open the class next year and requesting that all the officers to be trained may be deputed during the months of August and September 1911.

No. R. 1471-90--L. R. 148-11-43, DATED BANGALORE, 5TH SEPTEMBER 1911.

ORDER THEREON.—The deputation of as many of the officers as could be selected for training this year without dislocating current work has been already ordered.

2. It will be necessary to have a survey class of this kind next year and probably every subsequent year though not quite as large as in the last and current years.

3 The Superintendent of Survey is requested to ascertain from the Revenue Commissioner the number of officers and others that may have to be trained next year and submit proposals in time for the opening of the class next year, so that suitable provision may be made in the budget.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 6th September 1911.

READ—

Letter No. 11899, dated the 19th May 1911, from the Revenue Commissioner in Mysore, submitting for orders a copy of letter No. 4537-296, dated the 16th December 1910, from the Deputy Commissioner, Kolar District, regarding the remission of half the wet assessment for 1906-07 on the lands situated under the Ramasagara Amani Tank in the Bowringpet Taluk, which breached in November 1903.

No. R. 1510-9—L. R. 381-10-2, DATED BANGALORE, 6TH SEPTEMBER 1911.

ORDER THEREON.—The Deputy Commissioner states that the remission being under defined rules could be sanctioned by the jamabandi officer in accordance with Government Order No. 1447-54—R. 229-92, dated 25th July 1892, but that the remission statement, not being ready at the time of jamabandi, was not submitted for his orders and consequently the amount has been brought on the accounts. He, therefore, solicits instructions as to whether, in such cases, the Deputy Commissioner cannot give the necessary sanction himself instead of obtaining the sanction of a higher authority.

2. Government are of opinion that local Revenue officers are empowered to grant remissions on their own authority and without reference to Government in all cases in which the remissions are due under any standing order or rule; but if they happen to be included in the demand, collection and balance accounts, the sanction of the Revenue Commissioner should be obtained as in the case of amounts absolutely irrecoverable.

1. Subject No. 71 of the Dasara Representative Assembly of 1909 regarding the revision of atchkat of tanks during revision settlement and the following reply of Government :—

SUBJECT No. 71.
Extension of the scope of resurvey and settlement.
(1) Mr. D. Venkataramaiya, Bangalore City Municipality.

(2) (*a*), (*b*) and (*c*) Messrs. Seshadri Iyengar, Tumkur Municipality; Srikantaiya, Maddagiri Taluk; Hutchvire Gowda, Gubbi Taluk; and Ugre Gowda, Sira Taluk.
(*b*) Mr. B Gangiah, Mulbagal Taluk

Summary of discussion.—(1) The scope of the resurvey and settlement may be extended to include the revision of *atchkat* under the existing tanks, and the reduction of wet and garden assessments under major and minor tanks based on the precarious nature of the cultivation of the lands irrigated by such sources.

(2) The wet and garden lands under tanks are greatly in excess of the irrigating capacity of the tanks. And further many tanks have not filled for 10 or 15 years.

(*a*) The capacity of such tanks must be increased, or

(*b*) A proportionate extent of the *atchkat* should be reduced to dry assessment.

(*c*) In years of good rainfall when tanks may fill once or twice, these dry lands may be supplied with water and water-rate levied thereon, remission of half *kandayam* being granted when a tank does not fill and there is no cultivation below.

The forecasts made as to the lands likely to be irrigated by a tank when its restoration was undertaken, are often found to be incorrect. The tanks are also being gradually silted up and the sources of their supply are interfered with. The *atchkats* therefore require constant revision. Even during the resurvey the Survey Department proceeds upon the *atchkats* as originally calculated with the result that several of the lands classed as wet are incapable of receiving a sufficient supply of water even in ordinary seasons.

Mr. C. Seshadri Iyengar, Tumkur Municipality.—The original rates are guaranteed only for 30 years, and if at the time of revision it is found that any lands cannot be supplied with water they should be classed as dry. The consent of the occupant to the conversion of the land to a lower class should not be considered to be necessary. By adhering to the original classification, the rights of others who may have a better title to the supply of water from the situation of their lands will be affected. Where any land is found to receive less water than what it used to get at the time of the original settlement, the assessment should be reduced.

Mr. Anniah Pandit, Mysore District Board.—If lands which cannot get a proper supply of water are kept on as wet, there are likely to be constant disputes.

Mr. M. K. Krishnamurti Rao, Magadi Taluk.—In the case of wet lands the rates should not be guaranteed for 30 years. As the water-supply is liable to frequent fluctuation, the water rate should be made to vary with it.

Mr. Srinivasa Murti, Hassan Taluk.—The water-supply itself should be improved and the *atchkats* should not be reduced. When a land has once been classed as wet it is inequitable to convert it into dry without making any attempt to improve its water-supply and compensating the owner for the reduction of profit due to the failure of water.

Mr. Adappa, Tumkur Taluk.—It is not true that the raiyats oppose the conversion of land from wet to dry. Where they are convinced that it is impossible to supply a land with water they readily consent to its being classed as dry. This has happened recently under the Tumkur tank. What they are afraid of is that lands which can receive water may by improper means be brought under dry and attempts to improve irrigation given up.

Mr. Gangiah, Mulbagal Taluk.—It is necessary to examine all irrigation works thoroughly and take immediate steps for their improvement. The deterioration of irrigation works is a subject of serious complaint everywhere.

Reply of Government.—It is not possible to issue any general instructions applicable to all cases in matters of this kind. The difficulties urged are borne in mind in connection with each settlement and every endeavour is being made to mitigate the hardships complained of. The subjects will also be referred to the Revenue Commissioner and the Superintendent of Revenue Survey and Settlement.

2. Letter No. 36, dated the 12th September 1910, from the Superintendent of Revenue Survey, submitting his report.

With reference to your letter No. R. 6782-83—L. S. 28-09-1, dated 11th April 1910, calling my attention to Subject No. 71 of the Representative Assembly Proceedings of 1909, regarding the scope of resurvey and revision settlement and the revision of atchkat under tanks, I have the honor to state that the reclassification of water-supply to wet and garden lands is conducted mainly to ascertain the actual supply of water to the lands, as at present

enjoyed by them, and it needs no saying that the assessment is always proportionate to the water-supply. In this connection, I beg to invite your attention to para 18 of Col. J. P. Grant, late Survey and Settlement Commissioner's Report on the Revision Settlement of the Davangere Taluk (the first report on revision settlements) No. 55, dated 28th July 1902, which clearly explains the object of reclassification. Wherever the water-supply has deteriorated in the whole tract to such an extent as to call for a general reduction of even the maximum rates of wet assessment, a reasonable reduction is made; an instance of this kind is found in the reduction of the maximum wet rates in the Tumkur Taluk at the revision settlement, recently introduced. Garden lands are liberally treated under the orders of Government of 1902, and extreme rates, wherever found, have been wiped off by adopting lower maxima.

2. Regarding the reduction of atchkat under tanks, I beg to submit that this is possible only when the holders of wet lands consent to their conversion into dry. Where water-supply is found precarious and consent is given by raiyats holding lands at the tail end of channels which do not get a sufficient quantity of water for irrigation, the atchkat is reduced to the necessary extent. In the Tumkur Taluk during the revision settlement, atchkat under Tumkur Amanikere has been curtailed to the extent of about 145 acres and 30 guntas, as the raiyats consented to the conversion of wet lands into dry.

3. The classers of this Department do not take levels but estimate the supply of water on what they actually observe in the field and on the information furnished by the villagers. The estimate thus made is based mainly upon local conditions and manul prevailing at the time. If Government consider that any action should be taken towards the curtailment of atchkats of tanks, the Revenue Department may be instructed to have the matter investigated in consultation with the Department of Public Works, and the result communicated to me, with a list of lands to be converted into dry after taking in writing the consent of the holders thereof for such conversion.

---

3. Letter No. 8246, dated the 13th February 1911, from the Revenue Commissioner in Mysore to the Secretary to Government, General and Revenue Departments.

Adverting to your letter No. R. 1843—L. S. 28-09-3, dated 24th September 1910, asking for my opinion on the Survey Superintendent's letter No. 26, dated 12th idem, regarding the revision of atchkats of tanks during Revision Survey, I have the honor to state as follows :—

2. The sum and substance of the Survey Superintendent's letter is that nothing can be done in the matter unless the raiyats holding the lands under the tanks agree to their wet lands being converted into dry. He therefore suggests that the investigation should be carried out by the Revenue Department in consultation with the Department of Public Works in the case of each tank and the result of such investigation communicated to him together "with a list of lands to be converted into dry after taking in writing the consent of the holders thereof for such conversion."

3. As a rule, none of the raiyats generally apply or consent to have their wet lands converted into dry, though almost every one is ready to complain of the insufficiency of water. They, as a rule, refer to the insufficiency of supply and want to have it improved or remissions to be given from time to time. Further, though they may collectively admit the inadequacy of the supply, they will not volunteer to have their holdings converted into dry. It is for the Government as represented by its officers to decide what extent of wet cultivation is possible under a tank and what lands should be reserved as wet, and what survey numbers or portions thereof could be converted into dry with the least inconvenience or injury to vested interests. By the very nature of the duties and functions of the several Departments, it seems to me that the Survey and Settlement Department which undertakes to revise the classification of lands and their assessment, should undertake the duty of adjudging the extent of atchkat of a tank and the lands which should be comprised in such atchkat. As the Survey officers, at the time of the Revision Survey, have to make inquiries in regard to each field, they should be in a position to know—

(1) the lands that can be properly irrigated by the tank during ordinary years,

(2) those that cannot receive an adequate supply without detriment to the lands more favorably situated; and

(3) those that cannot receive any supply at all except in years of exceptionally good rainfall.

Lists showing the lands falling under the three classes mentioned above may then be prepared and the presiding Survey officer proceed to pass orders holding—

(i) that lands belonging to class (3) should be converted into dry irrespective of the consent of the holders thereof;

Revenue (Land Survey), dated 15th September 1911.

(ii) that holders of lands belonging to class (2) should be given the option of either having their lands converted into dry or having them kept on as wet. If the latter alternative is accepted, they should be distinctly told and bound down by mutchalka that they cannot claim equal rights with the holders of lands belonging to class (1) but should have permission to take only so much of tank water as is available after their wants are met and they should not be entitled to claim remission for partial failures of water-supply; and

(iii) that holders of lands belonging to class (i) could have no option but to have their lands kept on as wet.

4. I think this arrangement should be easily workable. The Public Works Department can readily supply the Survey Department with data as to the capacity of the tank and the estimated quantity of its water-supply in a normal year. The Revenue Department can, from the entries in the pahani, furnish a statement showing the extent of each survey number on which wet crops were cultivated and quantity of outturn in annas of a normal crop. The Revenue Department will further be able to say what raiyats have been complaining of insufficient supply and failure of crops. Also, if the tank panchayets should be organized, they would be in a position to say what lands could be irrigated with the least wastage and what should in the interests of the community be thrown out of wet cultivation. In this view, I would recommend that the work of revising the atchkat of tanks may be entrusted to the Survey Department and carried on on the lines indicated above.

---

4. Un-official note of the Superintendent of Revenue Survey, No. 168, dated 15th April 1911.

The question of reducing the atchkats of tanks is one which is far-reaching in its consequences, and as such, has to be dealt with with great care. It is a matter of common knowledge that in the Mysore State wet cultivation depends mostly upon tanks, the majority of which are minor. Even small kattes, ponds and pools have been taken advantage of to irrigate bits of land. An exact idea of the capacity of, and cultivation under, tanks may be formed by a perusal of the serial registers of the tanks prepared by the late Superintending Engineer, Mr. V. H. Karve, maintained in the Chief Engineer's Office. Through the courtesy of the Chief Engineer, I was able to see the register of tanks in the right and left bank series of the Palar Basin. A perusal of the register suggests that most of the tanks are small and not maintained in order and have an atchkat much beyond their capacity. The former is a defect which can be remedied by the adoption of effective measures for the improvement of tanks, and Government have already moved in that direction by the mauguration of a scheme for the restoration of minor tanks, for which an annual allotment is made in the budget. Regarding the second defect, *viz.*, the disparity that exists between the capacity and the atchkat, the remedy that would most naturally be suggested is the curtailment of the atchkat in proportion to the capacity of the tank.

2. But apart from the difficulties that would be met with in carrying out such a measure, to which I shall refer later on, those who suggest the remedy have not taken into consideration the extent to which raiyats holding lands under such tanks make use of the water available in them. It is a mistake to suppose that because a certain survey number is included in the atchkat of a tank, it does or should receive the supply of water therefrom in a quantity sufficient by itself to always raise wet crops on the land. The rules for the classification of water take due notice of the quality and quantity of irrigation, on the basis of actual cultivation and experience, and in accordance with the advantages enjoyed by the land, assessment is imposed. The imposition of wet assessment on any land does not create an obligation on the Government to give the raiyat as much water as he wants, the classification having been made according to "*mamool*" the raiyat is entitled to only so much of water as he was usually getting and he has to take the chances of good and bad years, the assessment having been imposed on a full consideration of all these circumstances.

3. Circumstances attending upon cultivation are not the same everywhere. How and with what crops a land could advantageously be cultivated is best known to the raiyat. He knows how much of water he would get for his land and how he should utilise it. Holders of lands under minor tanks make use of the tank water generally to supplement the rain irrigation, and so far as my experience goes, they never solely depend upon tank water, which is sufficient for only a few waterings especially during the breaks of clear weather in the monsoon. This affords the real explanation for the apparent disparity between the extent of atchkat and the capacity of tanks. Taking into consideration that assessments on lands are imposed according to the facilities of irrigation actually enjoyed and that lands under minor tanks are dependent upon the latter only to a limited extent, it will at once become evident that no step such as the one proposed, *viz.*, the curtailment of atchkat, is called for. This step is, in my opinion, highly prejudicial to the economic condition of the country on the one hand, and will unnecessarily affect the Government revenue on the other. If it be assumed that one unit

of water is necessary to irrigate one acre of land and atchkats are reduced accordingly, regardless of other circumstances, the greater part of wet cultivation will disappear and the raiyat will lose all interest in the maintenance of tanks, as he is sure to have his remedy if the tank fails to afford the usual supply. What should be aimed at is to improve the existing condition of things by improving the minor tanks, which are one of the principal assets of the State. On a full consideration of all the circumstances, I am firmly convinced that a general reduction of atchkats is most undesirable. Supposing such a scheme as is proposed has to be carried out, it is beset with many difficulties. It will have to be laid down clearly what class of lands should be converted into dry. There is no difficulty about lands which do not receive any supply at all, for under the reclassification rules, they will be classed as dry. The difficulty arises in the case of lands which receive an inadequate supply. If what I have stated in the foregoing paragraph regarding the supplementary nature of the irrigation afforded by minor tanks is borne in mind, it will be seen that even those lands that receive an inadequate supply from the tank are cultivated with wet crops. Are we justified in classing such lands as dry without the consent of the khatedar? The inadequate supply from the tank is not by itself a sufficient criterion to judge whether a land should be classed as dry or wet. Moreover, the conversion of wet lands into dry will affect the vested interests of parties. The value of the land is greatly diminished by the conversion. It is for this reason that holders of wet lands are generally unwilling to have them converted into dry. If they wish to retain their lands as wet and are willing to pay the assessment that is fixed thereupon, are we justified in enforcing the conversion of the lands against their will? I do not refer so much to the legal aspect of the question as to the equities of it. A forcible conversion will impoverish the raiyat and decrease the revenue unnecessarily. If, on the other hand, the raiyat is willing to have his land converted into dry and if it is established that the tank water is insufficient for its irrigation, the land will, in the ordinary course, be converted into dry, as was done in the case of several lands under the Tumkur Amanikere. It is to avoid all complications that are likely to arise, that I suggested in my letter that mutchalikas agreeing to conversion should be obtained from the raiyats. In some cases, no doubt, the curtailment of atchkat may benefit lands more favourably situated. But will it be proper to enforce the curtailment when all the lands have got equal rights? Will not such a measure lead to an unequal treatment being accorded to the raiyats and cause discontent? The best course is to consult the wishes of the cultivating raiyats who know their interests best, and if they press for relief by conversion of their wet lands into dry the relief may be granted, provided their grievance is substantiated.

4. One other point, on which I have to offer a few remarks is as regards the agency to be employed on the work of curtailment of atchkat. I do not agree with the Revenue Commissioner in thinking that it is the duty of the Survey Department to adjudge the extent of atchkat of a tank and the lands which should be comprised in such atchkat. The classer of this Department is more concerned with the ascertainment of what actually obtains in connection with the cultivation of a field. He does not take levels but records in his books such information as he is able to gather from the village officers and other raiyats who happen to be present at the time of classification, and also from his own observation. He visits the field only once after thirty years generally during the non-cultivation season. He rarely refers to the pahani accounts which are not of much help in reclassification. Moreover the pahani account itself cannot be regarded as sufficiently accurate to serve as the basis of such an important step as the curtailment of atchkat of tanks. On the other hand, the officers of the Public Works Department are in possession of all details regarding the supply and capacity of tanks, and by taking levels, they can accurately find out what lands could be supplied with water and how much of it. The Revenue Department can ascertain the history of cultivation in the usual course of annual inspection. It is only with the joint exertions of these Departments that a scheme of the kind contemplated can be carried on. The Revenue Commissioner himself admits in para 4 of his letter that the Survey Department has to obtain all the required information in the matter from the Revenue and Public Works Departments. If both the latter Departments decide as to what fields cannot be supplied with sufficient quantity of water in ordinary years and have to be classed as dry, and intimate the same to the Survey Department well before the commencement of the resurvey operations of a taluk, necessary action could be taken by the Survey Department, which, however, cannot, in my humble opinion, undertake to classify the lands in the manner suggested by the Revenue Commissioner, as our classers and measurers are not conversant with "levelling" and such work involving good deal of enquiry and time will seriously affect the progress of revision operations.

5. Before concluding this note, I desire to bring to the notice of Government that, in several cases, atchkats of tanks have unnecessarily been enlarged by the indiscriminate granting of *Nirsardi*. In its anxiety to punish the surreptitious use of Government water, the Revenue Department has indirectly tempted many a raiyat to apply for water, and when

Revenue (Land Survey), dated 15th September 1911.

applications are received they are sent to this Department for fixing the rate. This is prejudicial not only to the raiyat who asks for it but also to the existing wet cultivation. From the time I took charge of the Department, I have been discouraging the grant of *Nirsardi* without due enquiry as regards the supply of water. The Deputy Commissioner of Tumkur, Mr. K. S. Doraswami Iyer, having agreed with me that the indiscriminate granting of *Nirsardi* should not be allowed, has now almost stopped granting such applications under small tanks. I wish other Deputy Commissioners also will follow his example. Government may issue an order in the matter directing the Deputy Commissioners to be very careful in enlarging the atchkat of tanks by supporting applications for *Nirsardi*.

No. R. 1654-64—L. S. 28-09-5, DATED BANGALORE, THE 15TH SEPTEMBER 1911.

ORDER THEREON.—Recorded.

2. The Superintendent of Revenue Survey has clearly explained in his unofficial note that during revision of settlement a reclassification of water-supply is made as far as possible with reference to existing conditions and that it would be alike inexpedient and impracticable to carry on any further elaborate investigations with the object of attaining greater perfection in determining the area actually irrigable from a tank, as this is always a variable factor. Lands which have been already assessd as wet but which are unable to obtain a sufficient supply of water owing to any permanent defects in the work of irrigation on which they are dependent are classed as dry during revision of settlements but in the case of lands of which the water-supply is merely precarious, option is given to the holders thereof of getting them converted into dry. The wet assessment on each land is carefully regulated with reference to its water-supply.

3. Government have further provided a means of relief in Section 15 of the Tank Panchayet Regulation, No. I of 1911. The facilities given thereby, if properly utilised, will tend greatly to mitigate the hardships arising from defects in the supply and distribution of water. If the raiyats are regular in carrying out their immemorial obligations to maintain the sources of irrigation and co-operate amongst themselves to assure to each landholder his proper supply of water and prevent waste, Government are of opinion that, under the present system of classification, there will hardly be any case in which the rates imposed by the Survey Department will be found to be excessive or unsuitable.

4. The attention of Deputy Commissioners is drawn to para 5 of the Survey Superintendent's note regarding the indiscriminate sanction of applications for the use of water for converting dry crop land into wet.

5. The substance of this Order may be communicated to the members who mooted the subject in the Representative Assembly.

4. There were present the usual number of bidders, and competition was fairly keen, with the result that though the prices fetched were not so good as in the period of 1904-7 they were considerably higher than those of the previous year. It would seem that their downward course which began in 1908 is at an end, and that we may confidently look forward to a normal state of affairs.

5. The total quantity exposed for sale was Tons 2,204-15-39 against Tons 2,409-9-4 in the previous year of which Tons 2,196-14-81 were disposed of against Tons 1,971-6-109 in the year 1909-10.

6. The quantity offered for sale was less by Tons 204-13-77 while that actually sold exceeded by Tons 225-7-84. The quantity left unsold this year is inconsiderable amounting only to Tons 8-0-70 against Tons 438-2-7 in the previous year.

Proceedings of the Government of His Highness the Maharaja of Mysore,

The realization was Rs. 2,31,320-3-9 in excess of the pervious year, and the average per ton rose from Rs. 408 to Rs. 471. The highest average rate, *viz.*, Rs. 498 per ton, was realized in the Chikmagalur Koti, and the lowest, *viz.*, Rs 420, in the Sagar Koti. The Chikmagalur wood has always enjoyed a high reputation among buyers, for what reason we have not been able to devine. To all appearance it is in no way different from the wood of Hassan and Hunsur. The Sagar wood is discredited on the ground that its oil-yielding capacity is small, but it is doubtful whether there is any justification for this belief. It seems probable that the difficulties of transport is to some extent responsible for its disfavour. It is, therefore, intended to try the experiment of selling the wood of the Sagar and Sorab Taluks in Shimoga and to see what effect such sale will have on the prices.

9. All the districts except Hassan show a rise both in quantity sold and amount realized. The low average of the Shimoga District is due to the Sagar Koti sales.

11. As usual, Messrs. Volkart Brothers of Tellicherry were the largest purchasers. Mr. Gunda Setti, the only local merchant, purchased more than he did last year, notwithstanding the heavy losses he is believed to have sustained by his purchases in 1908 and 1909. A few of our old customers have dropped off and we had a new merchant this year in the person of Mr. Bhajanlal Durga Pershad of Kanouj City.

14. Compared with the prices of the previous year, there has been a marked improvement during the year in all the classes except roots, and the rise is more striking when compared with the averages of the decade ending 1908 except for Jajpokal. The feature of the year's sale was the very high price commanded by Milwa Chilta, which formed 11·2 per cent of the total sales.

The all-round average per ton was higher than that of the previous year by Rs. 63 and than that of the preceding decade by Rs. 10.

15. Particulars as to various classes of wood sold, arranged in groups according to quality, during the current year and in the previous year, as well as the prices realized for them, are given in the subjoined statement:—

16. The above statement shows the proportion of each class to the total quantity sold during the two years. It will appear that the proportion of the first and second class billets was lower than in the previous year and that of the Jajpokal was considerably higher. These facts testify to the care bestowed on the extraction of the wood.

17. The total quantity of private wood sold along with Government wood during the year was Tons 11-3-34 against Tons 2-0-49 in the previous year. All the wood exposed for sale was disposed of. The statement given below furnishes details as to this wood:—

District	Koti	Name of inam	Quantity			Amount

No. R. 1434-43—Ft. 26-10-4, dated Bangalore, 4th September 1911.

Order thereon.—Recorded.

2. The quantity of wood offered for sale was 2,204 tons, 15 cwt. and 39 lb. or 204 tons, 13 cwt. and 77 lb. less than in the previous year. Of this quantity, 2,196 tons, 14 cwt. and 81 lb. were sold, against 1,971 tons, 6 cwt. and 109 lb., realizing a sum of Rs. 10,35,412-13-10 in all or Rs. 2,31,320-3-9 more than in the previous year. The average price per ton realized was also higher, being Rs. 471 as against Rs. 408 in the previous year.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 10976, dated the 1st June 1911, from the Conservator of Forests in Mysore, submitting for approval, with reference to Government Proceedings No. R. 5531—Ft. 117-40-2, dated the 20th March 1911, a draft of a circular order proposed to be issued by him for the guidance of District Forest Officers in regard to the holding of periodical sales of timber, and also a draft Notification revising the timber auction sale rules of 1895.

No. R. 1705-14—Ft. 158-10-2, DATED BANGALORE, 18TH SEPTEMBER 1911.

ORDER THEREON.—The draft circular is approved.

2. As regards the time from which depot rent, referred to in Rule 8 of the draft notification, will have to be levied, Government consider that with facilities afforded for the payment of price at the place of sale and with the reduction of depot rent as proposed, there is no reason why the depot rent should not become liable to be paid from the 31st day after sale. Rule 8 has accordingly been modified. In cases of exceptional hardship, however, the Conservator will be competent to remit the rent for a period up to three months, as provided in the same rule.

3. Thus modified, the draft Notification will be published in the Gazette as hereunder.

NOTIFICATION.

No. R. 1715—Ft. 158-10-3, dated Bangalore 18th September 1911.

In supersession of the rules issued under Government Notification No. 15229—R. F. 155-92, dated 15th March 1895, the following revised rules for the sale of timber by public auction are approved by the Government of His Highness the Maharaja of Mysore and published for general information:—

I. Procedure.

1. Every auction sale shall be held by the Forest officer in charge of the District or other Forest officer not below the rank of Sub-Assistant Conservator deputed by the Deputy Commissioner.

2. Subject to the minima prices which may be fixed from time to time by the Conservator of Forests, but which will not be divulged, the highest bidder shall ordinarily be the purchaser. But the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers. Should any lot be disputed, it shall be again put up and sold.

3. Each purchaser shall, immediately after a lot has been knocked down to him, pay as earnest money a sum of rupees five and sign his name opposite the number and specification of the lot bought by him, in a book provided for the purpose. Such payment and signature shall be held as admission on his part of having bought such lot and of having accepted the terms of sale as herein specified.

II. Payments how to be made.

4. Immediately after the sale, each purchaser will be furnished with a memo showing the total amount due by him and with a chalan to pay immediately twenty-five per cent of such amount as a deposit into the Taluk Treasury at the place, or if there is no such

Revenue (Forest) dated 18th September 1911.

treasury, to pay the same into the nearest Taluk Treasury before the close of the 3rd or 5th day from the date of the sale as circumstances may require, regard being paid to the distance of the Taluk Treasury. A receipt for the deposit money will be granted by the Treasury Officer and must be presented to the Forest officer at once if the Treasury is at the place of sale and if otherwise before the close of the 5th or 8th day from date of sale as fixed. The Forest officer will initial the receipt and enter on its face the date of presentation. Should any purchaser fail to comply with this rule, the Forest officer shall be at liberty to resell all or any portion of the timber purchased by such defaulter, who shall be required to make good any loss, but shall not participate in any profit on such resale. The amount due by such defaulter shall be recovered from him as a revenue demand.

Note.—For the convenience of purchasers the quarter deposit or the whole of the sale amount will be received and acknowledged by the officer conducting the sale, if tendered on the spot at the time of sale.

5. The whole quantity purchased by each purchaser must be paid for within 30 days from the date of sale or within such further period not exceeding 90 days from the date of sale under the special orders of the Conservator of Forests; failing which the earnest and deposit moneys already paid in shall be forfeited to Government and the timber not paid for shall be resold. Moneys due may be paid into the Treasury of the taluk in which the depot is situated or into the District Treasury, but into no other, except in cases where the purchasers are permitted to pay into any other Government Treasury in accordance with the chalans issued to them.

III. Delivery of timber.

6. No timber shall be delivered to any purchaser until it has been paid for in full.

IV. Permit for removal.

7. No timber can be removed from the depot till a permit to remove timber signed by the Forest officer in charge of the depot shall have been obtained.

V. Depot rent.

8. Timber paid for may be removed at any time within 30 days from the date of sale, without payment of depot rent; but if left in the depot longer than 30 days from date of sale, such timber will remain at the risk of the purchaser and further shall be charged with depot rent at Rs. 6-4-0 per cent per annum on the sale amount from date of sale. If the timber be not removed within thirty days from date of sale, the same may after ten days' notice to the purchaser, be sold by public auction for the recovery of rent and costs, after due publicity of the sale, subject to full payment at once and immediate removal, and the balance of sale proceeds, if any, shall be paid to the original purchaser. If before such sale is concluded, the original purchaser tenders the rent due and cost, he shall be allowed to remove his timber. The Conservator of Forests may remit any portion of rent not exceeding three months' rent in any case on sufficient grounds being shown.

By Order,
C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The following papers relating to the settlement of the Manjanatha Forest Block in the Kankanhalli Taluk:—

(1) Letter No. 372, dated 10th May 1911, from the Forest Settlement Officer in Mysore, received with Revenue Commissioner's letter No. 12979, dated 28th June 1911:—

"I have the honour to submit a report on the conclusion of the settlement of the Manjanatha Forest in the Kankanhalli Taluk of the Bangalore District.

"2. The initial notification under Section 4 of the Mysore Forest Regulation, proposing to constitute the area into a State Forest, was published on pages 89 and 90, Part I of the English issue of the *Mysore Gazette* dated the 4th April 1909, and the proclamation under Section 5 of the said Regulation was issued by my predecessor in office, Mr. M. Shama Rao, and the same appeared on pages 249 and 250 of the Kannada issue of the *Mysore Gazette*, Part II, dated the 22nd April 1909.

"3. The proclamatory notices were got served on the villagers concerned through the Amildar of the Kankanhalli Taluk. The tract was inspected and perambulated by me in company with the Amildar and the Range Officer from the 8th to 10th July 1910.

"4. The following thirty-three claims were preferred to me at the time of enquiry:—

(*i*) Eleven claims for right of way.

(*ii*) Four claims for right to water.

(*iii*) Eighteen claims for rights not falling under any one of the above.

Of the eleven claims in (*i*), eight were admitted, two rejected and no orders were passed in respect of a claim relating to the use of the footpath leading from Survey No. 112 of *Hunsenhalli as it falls outside the area included in the reserve.*

Of the four claims in (ii), three were admitted, and in the case of the remaining one, no orders were passed as the katte in respect of which the claim was advanced would fall outside the reserve owing to certain deviations ordered in the boundary line.

Of the eighteen claims in (iii), twelve were admitted and six rejected.

"5. (Claim No. 9.) After excluding the area proposed for the reserve in question from Kolgondanhalli, there will remain for the use of the cattle of this village, which, according to the latest Khaneshumari account, consist of 1,550 head of horned cattle and 561 sheep and goats, an extent of 279 acres of gomal land. According to the rule prescribing 30 acres of gomal land for every 100 head of cattle, an extent of at least 480 acres of gomal land has to be assigned for this village. It is not possible to exclude any portion of gomal land out of the area included in the reserve, without disfiguring the map. Besides, any retrenchment out of the extent of gomal land included in the block in question will involve the exclusion of the northern portion of the reserve, which is a valuable tract from a forest point of view. It is therefore proposed to set apart a portion of kharab lands to the extent of 200 acres for the pasturage of village cattle, to make up the minimum area of gomal lands. As Survey No. 110 (kharab) measuring 559 acres 17 guntas appears to be well suited for the above purpose, I recommend that a portion of this survey number to the extent of 200 acres be phoded and assigned to the Kolgondanhalli village as gomal land. (*Vide* Government Order No. R. 4209-19—Ft. 83-09-1, dated 15th December 1909.)

"6. The Deputy Commissioner informed me in his letter No. R. 2462, dated the 23rd March 1911, that no appeals have been preferred to him against my decision relating to the settlement of the Block in question.

"7. The following records are herewith submitted:—

(i) B Register.

(ii) C Register.

(iii) Sketch map.

(iv) Boundary notification.

(v) Topo tracing.

"8. The date from which the reservation is to take effect may be inserted in the draft boundary notification."

(2) Letter No. 828, dated 27th July 1911, from the Conservator of Forests in Mysore, expressing his opinion.

(3) Statements B and C.

1	Channabasiah, patel of Bilidale, on behalf of villagers.	9th July 1910	States that if the area now left out after reservation is assigned to the villagers for pasturage, he has no objection to the formation of the State forest. He also likes to have a portion of Survey No. 15 as marked on the village map measuring about 55 acres left for communal purposes, as the raiyats would then be entitled to use the entire hillock known as Karikalyana.	.....	55 acres out of Survey No. 15 may be left out.	According to the boundary notification issued under Section 4, Survey No. 38 of this village should be entirely excluded. But I found that the preliminary demarcation line had been wrongly aligned and cut between the limits of Survey Nos. 15 & 38. This mistake was then and there rectified, and a cairn constructed at a distance of 17 chains from the south-west corner of Survey No. 17 which is in the holding of the village patel. The villagers represented that a portion of Survey No. 15 measuring about 55 acres should be excluded from the reserve so as to leave to them the entire hillock known as Karikalyana. The boundary line will be devised from the common bandha of Survey Nos. 38 & 15 near the Seethanhatte halla so as to touch the cairn newly constructed and referred to above, as this alteration of the boundary line will exclude 55 acres as prayed for by the raiyats. (Sd.) C. Venkata Rao, Forest Settlement Officer. 1st December 1910.	.....	.....
2	Channabasiah, patel of Bilidale, on behalf of the villagers.	9th July 1910	Requests that the footpath leading from Bilidale to Hosdurga may be allowed to be used all the year round.	.....	May be allowed	The claim of the villagers for the right of the footpath from the Bilidale village, passing through Survey Nos. 38 and 15 and leading to Hosdurga, will be admitted for men and cattle only throughout the year, width to be 6 feet. (Sd.) C. Venkata Rao, Forest Settlement Officer. 1st December 1910.	.....	.....
3	Do	9th July 1910	Claims right of way over the footpath branching out from the above and leading to Bhimagondanhalli.	.....	This is not necessary. Bhimagondanhalli is only a majare of Hosdurga. The footpath to be allowed (in claim 2 *supra*) may be so marked as to serve both these purposes.	The raiyats' claim for the right of way leading to Bhimagondanhalli is contested by the Forest Department on the ground that as it is a hamlet attached to Hosdurga, the footpath referred to in claim (2) may very well be used, for going to the former village. This objection seems to be reasonable. As this right does not appear to have been frequently exercised by the raiyats, the footpath in question *has not* been shown in the village map. I would therefore reject this claim. But the footpath admitted above will be so laid out as to serve the purpose of either village. (Sd.) C. Venkata Rao, Forest Settlement Officer. 1st December 1910.	.....	.....

Revenue (Forest), dated 21st September 1911.

4	Chennabasiah, patel of Bilidale, on behalf of the public.	8th July 1910	Claims right of way over the footpath shown in the village map through Survey No. 6 of his village.	.....	Instead of footpath this may be converted into a cart-track.	The villagers' claim relates to the footpath leading from Bilidale to Hunnanhalli passing through Survey Nos. 6 and 7. The District Forest Officer suggests that it may be converted into a cart-track and allowed for the use of the villagers. Considering the fact that this footpath leads into a populous village, this suggestion is accepted. I accordingly direct that the same may be converted into a cart-track of 15 feet wide and the raiyats allowed to use it all round the year. (Sd.) C. Venkata Rao, Forest Settlement Officer. 1st December 1910.	.....	..
5	Chennabasiah, patel of Bilidale, on behalf of the public	8th July 1910	Claims right of way over the cart-track leading to Vysarayandoddi through Survey No 16.	.....	This is not necessary	The claim put forward by the raiyats, refers to the cart-track leading to Vysarayandodi. This is objected to by the Forest Department on the ground that it is a majare village to Hunnanhalli and that there is already a way from Bilidale to Hunnanhalli. It is ascertained that about 200 acres of land out of Survey No. 180 have been lately granted for cultivation to the raiyats and that the village shanbhog is taking pains to bring them under cultivation. As a sort of encouragement, it is necessary to admit this claim. Besides, the existing cart-track to Hunnanhalli is rather circuitous and does not touch Vysarayandoddi. For these reasons I would admit this claim also. Width to be 15 feet. (Sd.) C. Venkata Rao, Forest Settlement Officer. 1st December 1910.	.....	..
6	Chennabasiah, patel of Bilidale, on behalf of villagers.	8th July 1910	States that there is a temple called Mahadeswaraguli in Survey No. 5 to which the villagers go to make offerings. This should be demarcated out free from reservation with a camping ground of 3 acres.	.....	Vysarayandoddi is only a majare of Hunnanhalli and only a part of Survey No. 108, out of which about 200 acres were given out for cultivation in the majare village in 1908 as per order of the Deputy Commissioner. A separate cart-track is already allowed from Hunnanhalli to Bilidale (*vide* claim 4). This claim may be rejected.	Claims 6 and 7. The temple known as Mahadeswaraguli in Survey No. 5 and the adjoining small katte with a camping ground of 3 acres all round will be demarcated *out free from reservation and* treated as an enclosure No separate way is necessary for this, as the footpath leading to Sulikunte village (referred to in claim 8) passes by this temple. (Sd.) C. Venkata Rao, Forest Settlement Officer. 1st December 1910.	.....	..
7	Chennabasiah, patel of Bilidale, on behalf of villagers.	8th July 1910	There is a small katte almost adjoining the above temple from which the raiyats fetch water when they go there to make offerings. This should also be demarcated out free from reservation.		The claim may be admitted. But the footpath that is to be allowed should be accurately defined.			
8	Chennabasiah, patel of Bilidale, on behalf of the raiyats.	8th July 1910	Claims right of way over the footpath leading to Sulikunte from his village passing through Survey Nos. 4, 5 and 6.	.....	The claim does not seem to be described accurately as it is not possible for the footpath to pass through Survey No. 6 from Survey Nos. 5 and 5 without entering other survey numbers on the way. The claim may, however, be admitted.	Footpath leading to Sulikunte from Bilidale village passes through Survey Nos. 4, 5 and 6. The District Forest Officer apprehends that as it is not sufficiently described, there might arise some difficulty in taking it through other survey numbers According to the village map it passes through Survey No. 6 as far as the katte situated in it. There cannot be any difficulty in continuing it through Survey Nos. 4, 5 and 6 which have also been included in the reserve The claims of the raiyats to this right of way is also admitted. The footpath will be laid out as indicated in the sketch map, width being 6 feet. (Sd.) C Venkata Rao, Forest Settlement Officer. 1st December 1910.	.....	..

9	Anniah, shanbhog of Kolagondahalli, on behalf of villagers.	8th July 1910	States that the line now laid out in Survey No. 42 may be altered so as to touch the western boundary of Survey No. 44 at a distance of 2 furlongs and 4 chains, from the north-east corner bandhe of Survey No. 38.	.....	The necessity for the proposed change cannot be made out unless it be for the ultimate object of encroachment by the raiyats of the adjoining survey numbers upon Government land. The proposed demarcation line is sufficiently far from the edge of cultivation. The claim may be rejected.	The area assigned as gomal land to this village is 1,102 acres 19 guntas; out of this it is proposed to include in the reserve 823 acres out of Survey Nos. 44 and 153, leaving 279 acres for the use of the village cattle. According to the latest Kaneshmari accounts of this village, it has 1,550 head of horned cattle and 561 sheep including goats. According to the rule prescribing 30 acres of gomal land for every 100 head of cattle, the village is entitled to have about 480 acres of gomal land. It is not possible to exclude any portion of gomal land out of the area included in the reserve, without disfiguring the map. Besides, any retrenchment out of the extent of gomal land included in the block in question, will necessarily involve the exclusion of the northern portion of the reserve which is very well suited for the formation of the Forest owing to its hilly nature. It is therefore necessary to set apart a portion of kharab lands to the extent of 200 acres for the pasturage of the village cattle. As Survey No. 110 measuring 559 acres 17 guntas appears to be well suited for the above purpose, I would recommend that a portion of this survey number having an extent of 200 acres be phoded and assigned to the Kolgondanhalli village as gomal land (*vide* Government Order No. R 4209-19—Ft. 83-09-1, dated 15th December 1909). This is a very populous village, there is no assessed waste land which can be taken up by the raiyats for cultivation. It is ascertained that no less than 28 darkhasts have been made by the raiyats for lands comprised in Survey Nos. 43, 44 and 153; in view of the growing agricultural needs of this flourishing village it is necessary to shift the line now touching cairn No. 14 to a distance of one furlong and 2 chains from the north-east corner of Survey No. 38 so as to exclude 55 acres in all out of the extent proposed to be included in the reserve. In that case the line will run north-west through Survey No. 44 meeting cairn No. 15 and from there westwards up to the trijunction bandhs of the village of Kolagondahalli, Gattigunda (Madras) and Chennamalay (Madras). Another extent of about 50 acres has to be found for the raiyats for cultivation purposes. (Sd.) C. Venkata Rao, Forest Settlement Officer. 1st December 1910.	.....	...

10	Anniah, shanbhog of Kolagondahalli, on behalf of villagers	8th July 1910	States that the demarcation line runs in Survey No. 153, close to cultivated fields, *viz.*, Survey Nos. 81, 84 and 201 and begs that it may be shifted further up to a distance of one furlong.	.....	May be done ...	As the preliminary demarcation line runs close to the cultivated fields, *viz.*, Survey Nos. 81, 84 and 201, advantage will be taken to have it so altered as to exclude an extent of 50 acres of land. Accordingly the line will be shifted to a distance of 2 furlongs from the north-east corner of Survey No. 81 and to a distance of 2 furlongs and 2 chains from the south-east corner of Survey No. 201. These alterations will necessarily entail the alignment of the line along the village southern boundary from a point three furlongs to the west of the trijunction bandhs of Bilidale, Kolagondahalli and Manjanath. The result of these deviations will give the raiyats 105 acres of land, which can be taken up by them on darkhasts for cultivation in addition to the extent available in Survey Nos. 42, 43 and 153. (Sd.) C. Venkata Rao, Forest Settlement Officer. 1st Dec. 1910.	.....
11	Channabasiah, a leading raiyat of Kolagondahalli, on behalf of villagers.	Do ...	Claims right of way over the footpath leading from Veeraiyandoddi to Sulikunte through Survey No. 153.	.....	One footpath from Veeraiyandoddi to the tank in Survey No. 4 and on to Sulikunte may be allowed as well as the right to the water of the tank in Survey No 4.	(*Claims 11 & 12.*) The claim relating to the right for the use of water in the katte in Survey No. 4 of Manjanatha village for the raiyats, is admitted and that relating to the footpath leading from Veeraindoddi to Sulikunte *via* the said katte will also be admitted all the year round, width to be 6 feet. Two footpaths are unnecessary		
13	Channabasiah, leading raiyat a Kolagondahalli, on behalf of villagers.	Do ...	States that there is a temple in Survey No. 41 of his village to which the raiyats resort for worshipping the deity known as Muneswara. This may be treated as enclosure, in the proposed Reserve, and the right of way to the footpath leading to it, which may be made to branch from the Kolagondahalli-Javalgere cart-track from bend No. 2 marked in the village map admitted throughout the year.	.....	May be admitted ...	The temple known as Muneswara temple in Survey No. 41 of Kolagondahalli will be demarcated out free from reservation and treated as an enclosure. A footpath leading to it from bend No. 2 of the Kolagondahalli-Javalgere, cart-rack will be used by the villagers throughout the year. Width to be 6 feet. (Sd.) C. Venkata Rao, Forest Settlement Officer 1st December 1910.	.....
14	Chennabasaiya, a leading raiyat of Kolagondahalli.	Do ...	The katte adjoining the above cart-track (Kolagondahalli-Javalgere cart-track) known as Goolichennankatte situated by the side of the Police out-post should be allowed for the use of the raiyats as their cattle go there for water	.....	Do ...	(*Claims No. 14 and 15.*) The katte known as Goolichennankatte situated in Survey No. 43 of the village, by the side of the Police out-post, and the temple of Muthurayangudi will be treated as enclosures in the Forest in question. Access to the said temple and katte will be through the Kolagondahalli-Javalgere cart-ttrack shown in the village map and referred to in claim No. 16. (Width to be 15 feet and the right may be exercised throughout the year.) (Sd.) C. Venkata Rao, Forest Settlement Officer. 1st December 1910	.....

18	Kaliah, a leading raiyat of Hunasanhalli, on behalf of the villagers.	10th July 1910	States that the villagers are in need of agricultural lands and prays that 400 acres out of the proposed area of 558 acres 6 guntas in Survey No. 106 may be left for purposes of cultivation.	.....	As already stated, nearly 200 acres have already been left out in favor of the raiyats as per orders of the Deputy Commissioner and this further concession is not called for and is not advisible in the interests of the Forest Department.	It is ascertained that all the assessed waste lands have already been taken up by the raiyats for cultivation and that raiyats do require some more lands for purposes of cultivation. The villagers' request for the exclusion of 400 acres out of the 500 acres in Survey No 106, now proposed to be included in the reserve, appears to be rather extravagant. Considering the fact that 200 acres out of Survey No. 108 have been recently ordered by the Deputy Commissioner to be given out for cultivation purposes, an extent of about 120 acres in Survey Nos. 106 and 108 will be quite adequate for the requirements of the raiyats of this village. The line will accordingly be deviated from the south-east corner of Survey No. 105 and be made to pass through Survey No. 106 in an easterly direction meeting the confluence of the two jungle streams in the said survey number From there the line will be taken southwards through Survey No. 108 meeting the eastern limit of the village of Hunasanhalli at a point about 2½ furlongs from the common bandhs of Survey Nos. 106 and 108. 19	Kallah, a leading raiyat of Hunasanhalli, on behalf of villagers.	10th July 1910	There is a den in Survey No. 108 known as Digambaraswami Vaddu to which the villagers go once in a year for making puja and on other occasions those that have taken vows go there to perform the same. This should be excluded from the forest. The footpath leading from Bilidale to Hunasenhalli should be allowed to be used by the raiyats as usual	.....	The den known as Digambaraswami Vaddu may be treated as an enclosure free from reservation. But instead of permitting a separate footpath from Hunasanhalli a footpath may be allowed to branch from the cart-track allowed in claim No. 4 preferred by the patel of Bilidale.	The den known as Digambaraswami Vaddu in Survey No. 108 of Hunasanhalli will be demarcated out free from reservation and treated as an enclosure. Access will be along the cart-track from Bilidale to Hunasanhalli referred to in claim No. 1. (Sd.) C. Venkata Rao, Forest Settlement Officer. 1st December 1910.	.....
20	Kallah of Hunsanhalli, on behalf of villagers.	10th July 1910	In Survey No. 108 there is a cart-track passing through Survey Nos 105 and 106 and leading to Kolgondanhalli. The villagers' right to use this should be recognized.	.....	A cart-track has already been permitted from Hunasanhalli to Bilidale and the same may be continued to Kolgondanhalli which adjoins Bilidale instead of allowing a separate cart-track.	The claim relating to the cart-track leading from Hunsanhalli to Kolgondanhalli through Survey Nos. 108 and 106 is rejected, as the cart-track leading from Hunsanhalli to Bilidale and thence to Kolgondanhalli may be conveniently used by the public. (Sd.) C. Venkata Rao, Forest Settlement Officer. 1st December 1910.	.....
21	Kallah of Hunasanhalli, on behalf of villagers.	10th July 1910	There is a kattle known as Shettankere in Survey No. 106, to which the village cattle go to drink water. This should be demarcated out free from reservation.	.....	May be done so	There is no need to consider the claim relating to the right for the use of the water of Shettankere in Survey No. 106 as the deviations of the lines ordered above will exclude this kattle from the reserve altogether. (Sd.) C. Venkata Rao, Forest Settlement Officer. 1st December 1910	.....
22	Kallah of Hunasanhalli.	10th July 1910	Footpath leading from Survey No. 112 and passing through Survey Nos. 113, 133, 132, 128, 129, 130 and 131 along which the raiyats take their cattle to the forest should also be allowed for them.	.....	The existence of these survey numbers cannot be made out from the village map supplied to the District Forest Office from the Revenue Department. If, however, these survey numbers as well as the right of footpath do exist, the same may be allowed in consultation with the Revenue Department.	As the footpath leading from Survey No. 112 and passing through Survey Nos. 113, 133, 132, 130, and 131 is outside the area included in the reserve I, no orders are necessary regarding the disposal of the claim of the villagers to it. 23	Chikvesrappa, patel of Gangahalli, on behalf of raiyats.	10 July 1910	More lands should be left for grazing, for the village cattle. The lands close to Nerlamaradakadu adjoining the British frontier, *viz.*, the village of Moogunda, *i.e.*, from the common bandhs of Survey Nos. 83 and 10 up to the trijunction bandhs of Hunasanhalli, Ganganhalli and Hunsankodihalli, may be excluded from the proposed reserve, to enable the raiyats to apply for the grant of the same for cultivation.	.....	The claim as described is not clear. Parts of Survey Nos. 10 and 83 originally intended to be reserved have already been excluded in favor of the villagers as can be seen from the tracing, the area thus excluded being 150 acres. A further extension of lands does not therefore seem necessary.	The total extent of gomal land assigned to this village is 640 acres 35 guntas. It is proposed to include 382 acres 20 guntas out of this gomal area within the proposed reserve in addition to 355 acres of kharab lands. There are 568 head of horned cattle in this village. According to the 30-acre limit for every 100 head of cattle the villagers must be satisfied with the area of 258 acres 35 guntas. As this village is comprised of three detached hamlets situated at some distance from each other and as much of this gomal land consists of big sheet rocks the villagers' clamour for the exclusion of more extent of gomal land is well founded. In my perambulation it was represented to me that, as it is, the entire extent of gomal land is quite inadequate for their cattle and that consequently they had to take them to the adjoining British Forests, after paying the prescribed grazing fees to that Government. In support of this statement they produced some grazing licenses issued to them by the British Forest authorities. As the necessity for more grazing lands has been made clear, i behoves us to make adequate provision to meet the raiyats' wants. I would accordingly exclude about 60 acres in gomal Survey No. 82 and 71 acres 20 guntas out of gomal Survey No. 10. The boundary line will accordingly be altered. The line will then run at a distance of 2½ furlongs southwards from the common bandhs of Hunasanhalli and Hunsainkodihalli, in a south-easterly direction through Survey Nos. 82 and 83 along the halls running in the said survey numbers up to the western limit of Survey No. 10. From this point the line will go north-east closely following the limit of the same survey number and meet the common bandhs of Survey Nos. 83 and 10. (Sd.) C. 24	Chikveerappa of Gangamdalli.	10th July 1910	The temple known as Sivalaya situated in Survey No. 82, should be demarcated out free from reservation, with a camping ground of 4 or 5 acres.	.....	(*Claims 24 and 25.*) Only the space occupied by the temple may be excluded free from reservation with access to it. No camping ground is to be permitted as the temples are rarely visited and devotees rarely halt there. The surrounding space is rich in sandal and nux vomica growth with all the precursors of a future valuable forest. The overgrown jantana bush affords a very valuable shelter and nurse for young sandal growth and its removal would be fatal to all these young plants.	(*Claims 24 and 25.*) The temples of Sivalaya and Somalingamgudi will be demarcated out free from reservation and treated as enclosures. Access will be given to the former temple throughout the year through the footpath leading from Gangamdalli to Bilidale by means of a footpath 6 feet wide *branching* therefrom as shown in the sketch map, and to the latter by means of the footpath leading from Gangamdalli to Bilidale. The footpath from Gangamhalli to Bilidale should be so aligned as to reach the Bilidale Honnamhalli curtrack alluded to above in Survey No. 108 of the latter village. No separate footpath from Gangamhalli as far as Bilidale is necessary. The footpath from Nerlehatti to Moogunda may be allowed.	Claims to the *right of way* to the footpath leading to Bilidale and that leading from Nerlahatti to Moogunda are admitted for men and cattle only throughout the year, width to be 6 feet. (Sd.) C. 27	Raghavendrappa, shanbhog of Basavapatna. Veerasandra, on behalf of villagers.	... The whole of this village has been proposed to be included in the reserve as it is a beehrak village. Sufficient extent of gomal lands have been assigned to the surrounding villages and there can be no manner of objection to the beehrak village being included in the forest. The village patel, and the shanbhog are not in favor of its inclusion in the forest, as they would lose the *potgi* due by Government. As the village is beehrak for a long time and as there is no cultivation in it they cannot claim any compensation for any small *potgi* they may be getting, and I therefore reject their prayers. The three assessed waste survey numbers included in the reserve may be excluded as they will at once be taken up for cultivation If this cannot be done he may be compensated equitably.	..... 31	Anniah, shanbhog of Kolgondahalli and a raiyat of Manjanatha.	11th July 1910	States that Survey Nos. 1, 2, 3, 5 and 6 of Manjanatha which are in his holding may be treated as enclosures.	.....	These survey numbers of the bechirak village lie on the frontier and the demarcation line cannot be laid out without encroaching upon those lands. To exclude them altogether would give a large scope for encroachment on the part of the land	This is also a depopulated village proposed to be included in the reserve. Survey Nos. 1, 2, 3, 5 and 6 are in the occupancy of one Anniah. According to the statement of lands accompanying the boundary notification issued under Section 4 of the Forest Regulation, these survey numbers have been excluded altogether. The sketch map prepared by the Forest Department also shews that these survey numbers have to be treated as enclosures. The District Forest Officer now requires that these lands should also be included in the forest. But no attention could be bestowed on this proposal as under para 7 of Government Order No 251-7—1305-12, dated 2nd	.....	

Revenue (Forest), dated 21st September 1911.

								owner without the fear of detection Besides, there will be no frontier line between the British and Mysore lands at this point These numbers have not been cultivated for the last 25 years and there is little chance of their cultivation in future The formation of a future village is only a case on the part of Subbhoge, Annappa The survey numbers should be acquired in the interests of the Government	October 1901, no new lands not included within the limits given in the Notification issued under Section 4 can be added to the reserve. The above survey numbers will, therefore, be treated as enclosures and demarcated out from reservation with access to them by means of cut-track leading from Kolgondahlli to Byalal The village became inchanal 99 years ago and as no attempt has yet been made to build houses, the occupant's prayer for the grant of a site for the village deserves no consideration now, nor is there any reason to assign new gomal lands to it (Sd.) C Venkata Rao Forest Settlement Officer 1st December 1910.

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. R. 1815-19--Ft. 14-11-4, DATED BANGALORE, 21ST SEPTEMBER 1911.

ORDER THEREON.—Government are pleased to approve of the settlement as effected by the Forest Settlement Officer and the notification under Section 17 of the Forest Regulation as hereunder will be published in the Gazette, the 1st of October being the date from which the forest will be declared a State Forest.

2. The assignment of 200 acres out of kharab Survey No. 110 (559 acres and 17 guntas) of Kolgondanhialli as gomal land for the cattle of the village, is also approved and the Deputy Commissioner, Bangalore District, is requested to have that extent subdivided and set apart as gomal.

3. He is further requested to duly promulgate the boundaries of the Block in the localities in which it is situated.

4. The assessment aggregating Rs. 12-4-0 on Survey Nos. 2, 3 and 4 of Yelachahalli will be written off the accounts.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Conservator of Forests in Mysore.

It enters the forest in its western boundary in Survey No. 6 of Bilidale at a point about 10 chains north-west from Cairn No. 7, goes north-east through Survey Nos. 6, 4 and 5 of the same village and quits the forest in the last-named survey number at a point about 38 chains north from the south-west corner of Survey No. 5 of Bilidale.

Proceedings of the Government of His Highness the Maharaja of Mysore.

5. Cart-track from Bilidale to Hunsanhalli, 15 feet wide and about 165 chains long, open for men, cattle and carts all the year round. It enters the forest in its western boundary in Survey No. 6 of Bilidale at a point about 2 chains south from the south-east corner of Survey No. 7 of the same village, goes south and south-west through Survey No. 6 of Bilidale, south-east and south through Survey Nos. 1 of Basavapatna-Veerasandra and 106 and 108 of Hunsanhalli and quits the forest in the southern boundary in Survey No. 108 at a point about 2 chains north-west from Cairn No. 3.

6. Cart-track from Bilidale to Vyasarayadoddi, 15 feet wide and about 140 chains long, open for men, cattle and carts throughout the year. It enters the forest in its western boundary in Survey No. 15 of Bilidale at a point about 15 chains east from Cairn No. 6, goes south-west through Survey No. 15 of the same village, and south through Survey No. 106 of Hunsanhalli, and quits the forest in the southern boundary in the same survey number at a point about 30 chains south-east from the south-east corner of Survey No. 105 of Hunsanhalli.

7. Footpath from Bilidale to Hosdurga, 6 feet wide and about 74 chains long, open for men and cattle only throughout the year. It enters the forest in its western boundary in Survey No. 15 of Bilidale at a point about 10 chains west, from Cairn No. 6, goes south-west through the same survey number and quits the forest in its western boundary at the junction of Hunsanhalli and Hosdurga village boundary.

8. Footpath from Ganganhalli to Bilidale, 6 feet wide and about 164 chains long open for men and cattle only throughout the year. It enters the forest in its southern boundary in Survey No. 82 of Ganganhalli at a point about 20 chains north-west from Cairn No. 2, goes north through the same survey number and Survey No. 1 of Basavapatna-Veerasandra and north-west through Survey No. 6 of Bilidale and meets cart-track No. 5 *supra*.

9. Footpath from Nerlahatti to Mugunda (Madras), 6 feet wide and about 72 chains long, open for men and cattle only throughout the year. It enters the forest in its southern boundary in Survey No. 82 of Ganganahalli near Cairn No. 2, goes north-west through Survey Nos. 82 and 83 of the same village and quits the forest in the eastern boundary in Survey No. 83, at a point about 11 chains north-west from the northernmost corner of Survey No. 10 of Ganganahalli.

B. The undermentioned concessions are admitted within the block :—

(i) Muthuroyangudi and Gulichennanakatte in Survey No. 43 of Kolgondanhalli are treated as enclosures in the block, with access to them by means of cart-track No. 1 *supra*.

(ii) Muneswara temple in Survey No. 44 of Kolgondanhalli is treated as an enclosure, with access to it by means of a footpath which branches from bend No. 2 of the Kolgondanhalli-Javalgere cart-track and goes east through Survey No. 44 for a distance of about 20 chains to the temple. Width of the path is 6 feet.

(iii) Survey Nos. 1, 2, 3, 5 and 6 of Manjanatha village are treated as enclosures, with access to them by means of cart-track No. 2 *supra*.

(iv) Mahadeswaranagudi and the adjoining small katte in Survey No. 5 of Bilidale are treated as enclosures with a camping ground of 3 acres all round. Access to them will be by means of footpath No. 4 *supra*.

(v) Temples of Sivalaya and Somelingangudi in Survey No. 82 of Ganganhalli are treated as enclosures. Access to the former will be by means of a footpath, 6 feet wide which branches from footpath No. 8 *supra* and goes north-west through Survey No. 82 of Ganganhalli for a distance of about 15 chains, to Sivalaya and to the latter by means of footpath No. 8 *supra*.

(vi) Digambaraswamivaddu in Survey No. 108 of Hunsanhalli is treated as an enclosure, with access to it by means of cart-track No. 5 *supra*.

Correspondence beginning with letter No. 6184—1572, dated 4th May 1907, and ending with unofficial reference dated 14th June 1911, from the Comptroller, in respect of the list of audit objections pending adjustment.

No. FL. 981-1025—G. F. 408-06-13, DATED BANGALORE, 1ST SEPTEMBER 1911.

ORDER THEREON.—The outstandings under the several heads of the objection books up to the end of June 1906 are as follows :—

2. The lists now put up by the Comptroller show several old items under "Advances recoverable" still pending. Evidently the Deputy Commissioners concerned have not taken interest in getting the accounts adjusted. And as several of the items are very old, it is considered necessary that a time limit should be fixed within which these should be adjusted. The Government are, accordingly, pleased to fix a period of six months from the date of this Order, as the time allowed within which to adjust the outstandings, failing which the officers whose duty it is to adjust may have to be held personally liable. The Comptroller is requested to furnish each officer with a list of items outstanding against him and make a detailed report to Government after a period of six months as regards the action taken by each officer.

3. *Items adjusted but awaiting clearance.*—These items are mostly *bonâ fide* and the objections are more or less technical. Government are pleased to pass these items formally, so that the items may be removed from the objection books of the Comptroller. Government like to impress on the Deputy Commissioners and other disbursers the necessity for careful scrutiny and prompt adjustments of Comptroller's objections in future. The Comptroller is requested to report the names of officers who, in future, habitually keep their objections unremedied for more than three months.

4. *Service payments for recovery.*—These items have to be recovered. It is not clear why, when the amount was placed under objection, the Treasury Officer did not recover these amounts by short payments when the next bill was presented for payment. The Comptroller's objection should prevail over every authority under the Government and the Treasuries should promptly give effect to his objections, leaving the aggrieved party to seek his own modes of redress.

5. Government regret to observe that all the objections are such that could have been cleared long ago, if the Treasury Officers and the disbursing officers had taken prompt steps to remedy them.

Government Order No. Fl. 138-78—G. F. 382-08, dated the 7th July 1909, relaxing in certain particulars the rule regulating the grant of house-building advances to officers in Government service as contained in Article 136, Civil Account Code, so far as proposals to build houses in the extensions of Bangalore, Mysore and Shimoga are concerned.

2. Government Order No. Fl. 1894-934—Ml. 478-06, dated the 9th October 1909, reverting to the system of making advances not exceeding one year's pay in each case to enable Government servants to construct houses in the extensions of Bangalore, Mysore and Shimoga.

No. Fl. 1306-49—G. F. 237-10-3, DATED BANGALORE, 15TH SEPTEMBER 1911.

ORDER THEREON.—In some cases officers already owning houses in the extensions built with the help of Government advances, have applied for further advances to construct fresh houses in the same extensions. As the granting of such applications appears unnecessary and financially objectionable, the Government of His Highness the Maharaja of Mysore are pleased to rule that hereafter an officer who has built a house with the help of a Government advance in the extensions of a city should not be allowed a further advance for building another house in the same or another extension of the same city.

Letter No. 5014, dated the 14th December 1910, from the Excise Commissioner in Mysore, submitting the record of enquiry relating to the claim of the inamdars to the toddy revenue of Kaliyur village, T.-Narsipur Taluk, Mysore District, and stating that the inamdars are not entitled to this revenue.

2. Subsequent communications on the subject.

No. FL. 1086-9—S. R. 94-10-5, DATED BANGALORE, 6TH SEPTEMBER 1911.

ORDER THEREON.—The toddy revenue was not conceded to the inamdars at the time of the alienation of the village and at the inam settlement it was expressly reserved to Government. The inamdars have admitted that they never enjoyed this revenue. The claim of the inamdars is disallowed. The shop existing in this village will be removed from the list of inam shops.

No. FL. 1178-81—S. R. 132-10-2, DATED BANGALORE, 12TH SEPTEMBER 1911.

ORDER THEREON.—The Sanad alienating the village does not expressly concede the toddy excise revenue to the Inamdar and the Inam Settlement conducted in 1878 reserves it to Government. The Inamdar has himself admitted that he has never enjoyed this revenue. Government therefore concur with the investigating officer and the Excise Commissioner and direct that the claim be disallowed. Letter No. 1728, dated the 18th August 1911, from the Excise Commissioner in Mysore, submitting the record of enquiry relating to the claim to the toddy excise revenue of Sarvamanyam Thumbagondanahalli village, Koratagere Sub-Taluk, Tumkur District.

NO. FL. 1361-4 -S. R. 40-11-2, DATED BANGALORE, 16TH SEPTEMBER 1911.

ORDER THEREON.—The revenue in question has been expressly reserved to Government at the time of the Inam Settlement conducted in 1870 and one of the inamdars admits that there is neither a toddy shop nor a grove of date trees in the village. He further admits that he has not enjoyed the revenue for thirty years. The claim of the inamdars to toddy revenue in respect of the village referred to above is therefore disallowed.

Letter No. 5535, dated the 28th March 1911 from Government to the Revenue Commissioner, observing, with reference to the application of Mr. K. Chandy, Deputy Commissioner, Chitaldrug District, for permission under Article 628 of the Service Regulations, to proceed to Bangalore to consult the Government Oculist, that he may take the casual leave required and proceed to Bangalore and that the question of his title to travelling allowance for the journey under Article 627 of the Service Regulations requires consideration.

No. Fl. 1402-45—S. & A. 203-11-2, DATED BANGALORE, THE 18TH SEPTEMBER 1911.

ORDER THEREON.—On a carefull consideration of the question, Government are of opinion that no travelling allowance should be granted where an officer is compelled to undertake a journey in order to consult a Specialist if a general Medical Officer is available in the station, and that the officer who nevertheless desires to consult a Specialist, should, in such a case, take leave and proceed at his own expense to the station where the Specialist is.

2. Accordingly, the following will be inserted as Note (1) to Article 627 of the Service Regulations:—

"*Note.*—Medical Officer in this article means a general Medical Officer. Government officers who want to consult Specialists should travel at their own expense."

Letter No. 2093—654, dated the 21st December 1909, from the Comptroller to Government, Public Works and Railway Branch:—

"I have the honor to bring to your notice that the present local form of service book printed on thin paper is not a suitable form for record expected to last the whole length of an officer's service. The inferior get-up accounts to some extent for the unsatisfactory manner in which these important records are now generally maintained throughout the State. In view of the importance attached to the proper maintenance of service books for the speedy settlement of pension cases, I would strongly recommend the desirability of authorising the Superintendent of Government Press to print the same on superior royal paper strongly bound and issued at reasonable cost.

2. The accompanying note prepared by Accountant K. Ethirajalu Naidu of my office under the instructions of the Assistant Comptroller, comparing the relative advantages of the service book form as used in British India and of the local form, is also herewith forwarded together with sample forms of both the copies.

3. The tattered condition in which these books were found at the time of inspection by my Assistants led me in the first instance to issue my circular No. 3 P. W., dated 24th September 1909, but a permanent remedy is to be found in the suggestion now made, which, I hope, will meet with the approval of Government."

* * * * * * *

No. Fl. 1245-88—S. & A. 369-09-8, DATED BANGALORE, 14TH SEPTEMBER 1911.

ORDER THEREON.—The present local form of service book is found defective in several ways for a record expected to last the whole length of an officer's service. Its inferior get-up, entries of leave therein crosswise in red ink, etc., make the book look untidy. It is found necessary that the service book should furnish all the information required for the preparation of a pension application and be properly maintained for speedy settlement of pension claims. In view, therefore, to secure the desired object, the Government of His Highness the Maharaja are pleased to introduce a new form of service book as per sample herewith, in supersession of the existing one and direct its adoption in future.

2. The Superintendent, Government Press, should include this in his stock and supply the Book Depot with copies as required.

The following reports of the Magistrates of Districts on the working of the Mysore Factories Regulation, 1892, during the year 1910:—

(1) Letter No. 351, dated 28th February 1911, from the District Magistrate, Chitaldrug District.

I have the honor to forward herewith the following report for the calendar year 1910, on the working of the Factories Regulation, IV of 1892, and the rules thereunder.

2. The marginally noted three factories which were brought under the Regulation last year, have continued to work without complaint, during the year under report.

1. Ratanjee Harmosjee & Co., Davangere.
2. The Davangere Ginning Factory, Davangere.
3. The Tadpatri Cotton Press Company, Limited, Davangere.

3. All these factories are, as detailed in the accompanying statement, worked by steam engines. All the three are worked with midday stoppages with a midday interval *(a)* of half an hour in the case of the first, (*b*) one hour in the case of the second, and (*c*) one and a half hours in the case of the third.

4. Further relief is reported to be given to women in the first factory by employing 6 extra relievers. As to midday interval in the case of the first Company, it continues to be half an hour in spite of instructions issued from this office; strict orders will now be given to remedy the evil at once.

5. The daily average number of operatives employed is detailed below:—

Males	Females	Children	
16	22	None	in the 1st factory.
10	20	„	in the 2nd factory.
20	30	„	in the 3rd factory.

It will be seen that children under 9 years have not been employed at all in any of these factories.

6. A slight accident resulting in some injury to the right hand is reported to have occurred on 30th March 1910, to a female cooly working in the first factory, who soon recovered from the effects thereof on being treated in the Hospital, Davangere.

7. The Amildar-Magistrate, Davangere, reports that the factories were inspected by him three or four times, but no report of it was submitted to this office. His attention is, however, drawn to Rule 10 of the rules framed under the Regulation directing the submission of the records of inspection to the Registering Inspector.

8. A statement showing the details of these factories is annexed hereto for reference.

9. In addition to these, three other factories are reported by the Amildar-Magistrate of Davangere to be working at Davangere and steps are being taken to see if these factories could also be brought under the Regulation.

Judicial and Legislative (Legislation), dated 16th September 1911.

(2) *Letter No. 276—44, dated 28th February 1911, from the District Magistrate, Shimoga District.*

I have the honor to state that no factories as can be construed under the Mysore Factories Regulation and Rules framed thereunder existed in this district during the year 1910.

(3) *Letter No. 335, dated 4th March 1911, from the District Magistrate of Kadur to the Secretary to the Government of Mysore.*

I have the honor to report that during the past calendar year 1910, there were no factories in this district fulfilling all or any of the conditions of the definition of the word "factory" in Section 2 of the Mysore Factories Regulation, IV of 1892.

(4) *Letter No. 7271-238, dated 4th March 1911, from the District Magistrate, Kolar District.*

I have the honor to submit herewith the following report for the year 1910 on the working of the Mysore Factories Regulation of 1892 and the rules framed thereunder.

2. The Goribidnur Sugar Factory is the only one in the district coming under the operation of the Factories Regulation. Mr. Hajee Ismail Sait is the proprietor of the factory and Mr. J. Cromwell was in immediate charge of the working and the internal management of the factory during the year.

3. The factory is worked by steam-power and the strength of the same is one hundred horse-power. The machinery, etc., are protected by proper fencing, and sufficient ventilation is also afforded in the mill. There were no accidents reported during the year.

4. The average number of operatives employed during the year was 149 males and 11 females.

5. There were no prosecutions during the year under the Factories Regulation.

6. The factory is at work on all days of the week except on two Sundays in a month on which a holiday is given.

7. The Sub-Divisional Magistrate, Chikballapur, inspected the factory on 19th October 1910.

8. The statement that is to accompany the report is herewith submitted.

Judicial and Legislative (Legislation), dated 16th September 1911.

(5) *Letter No. 353, dated 8th April 1911, from the Deputy Commissioner, Hassan District.*

I have the honor to state that there are no factories in this district, under the Mysore Factories Regulation, IV of 1892, for submission of a report regarding the working of the same.

(6) *Letter No. 581, dated 13th April 1911, from the Deputy Commissioner, Mysore District.*

I have the honor to submit herewith the following report on the working of the Factories Regulation, IV of 1892, and the rules framed thereunder for the calendar year 1910.

The only factory that is registered under Rule 4 of the Regulation is one at Hunsur, *viz*, Matheson's Works. It consists of only two departments, coffee curing and bone crushing for manurial purposes, the saw-mills having since been abolished, as reported by the Civil Surgeon, though the Company's returns continue to show it as one of their departments.

Strength.—The daily average attendance of the operatives during the year is as follows, as per report of the Civil Surgeon, Mysore.—

	Adults	Children
Males	42	18
Females	28	
Total—	70+18=88	

Hours of business.—The working hours are from 7 A.M. to 5 P.M. with an interval of one hour from 12 noon to 1 P.M. The nature of the work assigned to the operation and the working days in the week are said to be the same as in the previous year.

Guard against danger.—All the moving parts of the machinery are carefully protected.

Sanitation.—Drinking water is supplied freely to the operatives. Improved latrines have been erected. They are daily conserved and the night-soil and urine are being disposed of timely.

Accident.—There was no accident of any importance during the year.

Returns.—The returns prescribed are being submitted regularly to the District Magistrate every month by the manager of the factory.

Inspection.—The Hospital Assistant occasionally inspects the factory and the operatives.

The reports due from the Amildar of Hunsur and the Sub-Division Officer, Mysore, have not yet been received even though reminders have been issued on the subject. Even the report of the Civil Surgeon was received after a delay of ten days on pressing reminders issued.

As the report of the Amildar and the Sub-Division Officer are expected to throw no more light on the subject than the one furnished by the Civil Surgeon, their receipt was not awaited to save further delay.

The working of the factory may be said to be on the whole satisfactory considering the result of the inspection by the Civil Surgeon, and the report received from time to time from the manager of the company.

(7) *Letter No. 413, dated 20th—21st April 1911, from the District Magistrate, Tumkur District.*

I have the honor to state that there are no factories in this district for a report being submitted as required by the Factories Regulation and the rules framed thereunder.

(8) *Letter No. S. 528, dated 14th June 1911, from the District Magistrate, Bangalore District.*

Adverting to Government Order No 853-69, dated 29th October 1903, I have the honor to submit the following report on the working of the Mysore Factories Regulation, IV of 1892, for the calendar year 1910.

There are two mills in the Bangalore City, falling under the Regulation, *viz*., the Bangalore Woollen, Cotton and Silk Mills Company, Limited, and the Mysore Spinning and Manufacturing Company, Limited, and they are located in the same places occupied by them during the last year. The former is under the management of Messrs. Binny & Co. of Madras, and the latter under N. Sirur & Co. of Bombay.

The prescribed registers under the Factory Rules are maintained in both the mills. During my inspection, I noticed some omissions in the registers maintained in the Woollen Mills and instructions have been given to have them rectified Notices showing the working hours are posted at the entrance of the premises in both the mills.

2. The sanitary arrangements made in the two mills are not very satisfactory. In the premises of the Woollen Mills, some additional buildings have lately been constructed, but the ventilation therein does not appear to be sufficient The District Medical and

Sanitary Officer will be requested to inspect the mills and report in the matter. Pipe water is used for drinking purposes and the tank water for washing purposes in both the mills. In the Sirur Mills, the pipe water is carried to the mill premises in a cart from a public fountain situated at a distance of 100 yards from the mills. The Agent was requested more than once to have water connection to the premises of the mill. The Mill Agent states that his application for water connection is pending in the Water Works Engineering Department.

3. Suitable arrangements are made in both the mills for the latrine and the removal of night-soil. The latrine in the Sirur Mills is situated very close to the public road leading to the Malleswaram Extension. It seems desirable to shift the latrine to some less objectionable place.

4. There are sufficient means of exit for the operatives to clear out in case of fire and water pumps are ready for use in case of emergency.

5. The Binny Mills are said to have been whitewashed a few months back and the Sirur Mills in December last. The machinery and mill gearing are protected by proper fencing.

6. The statement herein enclosed shows the daily average number of operatives consisting of adults and children of both the sexes. The daily average number of operatives employed in the Binny and the Sirur Mills during the year under report was 1,094 and 711 respectively, as against 1,204 and 780 during the year previous.

Children under 9 years are not admitted and those that are admitted have all been certified to be fit by the Medical Officer. Children and females are not allowed to clean the machinery while in motion nor are they made to overwork. It was ascertained during my inspection that male operatives work extra hours in case of emergency.

7. The general health of the operatives employed in both the mills was found to be good. The mills are not worked on Sundays. But when a holiday is required on any other day of the week, on account of festival or other purposes, mills are closed on that day and in lieu thereof Sunday will be utilized for working purposes.

8. The Binny Mills are working with electric power and the Sirur Mills with steam power. The quantity of power used in both the mills is 500 N. H. P. It is satisfactory to note that there were no accidents in the Binny Mills. But in the Sirur Mills seven accidents have been reported during the year under report. Out of these seven accidents, three were of serious nature as noted in the accompanying statement. The injured persons are reported to have been removed to the Victoria Hospital for treatment. The manager is requested to take better precaution to avoid such accidents in future.

9. There were no offences reported against the Factory Regulation and Rules during the year under report. I inspected a few samples of yarn spun in the Sirur Mills by testing on the wrap reel. They were found to be correct to the standard counts.

10. The flour mills attached to the Sirur Mills is also working satisfactorily as in the previous year. The trade is reported to be dull in both the mills owing to the high prices of cotton.

No. J. 952-9—Legis. 33-10-9, dated Bangalore, the 16th September 1911.

Order thereon.—The number of factories in the State brought under the Factories Regulation remained the same as in the previous year as shown in the *subjoined statement:*—

The sugar factory at Goribidnur, which had stopped work in 1909, resumed work during the year.

2. The sanitary arrangements obtaining in the two mills at Bangalore are reported to be not very satisfactory. A similar remark was made in respect of the Bangalore Woollen Cotton and Silk Manufacturing Co., Ltd., by the District Magistrate in his report for the year 1908, but it was stated in the report for 1909 that the defects noticed in the previous year had been remedied. The improvements effected were evidently not permanent and the District Magistrate is therefore requested to take steps without delay to enforce strictly, in the case of the two mills, the provisions of the Regulation, and to submit a report to the Government as to the action taken by him in the matter.

3. The cotton ginning factory of Harichand Thobanji Neelappa at Davangere continues to violate the conditions regarding midday stoppage and the hours of interval in the case of women employed. Government regret that the District Magistrate has taken no action in the matter in spite of the clear instructions conveyed in para 3 of the Government Order No. J. 890-7—Legis. 29-09-9, dated 20th September 1910. He will be requested to take without delay the necessary action to enforce the conditions prescribed by law in this behalf.

4. It is reported that in the cotton ginning factory of Ratanji Harmosji & Co. at Davangere the women employees, who are 22 in number, are given relief in their work by the additional employment of six relievers. It is observed that this factory works for 12 hours, *viz.*, from 7-30 A.M. to 7-30 P.M. with half an hour's interval during the day. It is not clear how the system of relief is worked, and it therefore becomes necessary that the District Magistrate should satisfy himself that the condition contained in Section 6 (3) of the Regulation is not violated.

5. The attention of the District Magistrate of Kolar is drawn to the fact that the provision of only two holidays in the month to the operatives of the Goribidnur Sugar Factory is opposed to Section 5 B of the Regulation, which requires that work should be stopped on all Sundays.

6. The reports of the District Magistrates of Bangalore and Kolar do not furnish information as to the maximum period during which women and children are made to work in the day and the length of interval allowed to them. These particulars should be invariably given in all future reports.

7. Government cannot regard the inspection work done by the District Magistrates of Bangalore, Kolar and Mysore as satisfactory. Rule 8 of the Rules framed under the Regulation requires that every factory should be inspected at least three times in a year, but in no case has this direction been observed in the districts referred to above.

8. The District Magistrates concerned will report after three months what action has been taken and with what result in respect of the various matters noticed in this review.

Letter No. 2251, dated the 15th May 1911, from the Officiating Chief Inspector of Explosives in Mysore, forwarding a report on the working of the Mysore Explosives Regulation and rules framed thereunder during the calendar year 1910.

No. J. 941-51—LEGIS. 39-10-2, DATED BANGALORE, 16TH SEPTEMBER 1911.

ORDER THEREON.—Recorded.

2. Government are glad to note an improvement in the total amount of inspection work done by the Magistrates and the Police in the State during the year, but the value of this work would have been greater if unnecessary and too frequent inspections of the same premises had been avoided and if shops, now left uninspected, had been inspected at least once.

3. The attention of the Chief Engineer is invited to the remarks of the Officiating Chief Inspector of Explosives in para 4 of the report, on the condition of the magazines and stores in the charge of the Public Works Department.

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. G. 1769-824—G. M. 101-11-5, DATED BANGALORE, 18TH SEPTEMBER 1911.

ORDER.—His Majesty the King-Emperor has declared his Royal intention to hold at Delhi on the twelfth day of December, One Thousand Nine Hundred and Eleven an Imperial Durbar for the purpose of making known the solemnity of his Coronation. It is the desire of His Highness the Maharaja that this unique, most solemn and auspicious event should be locally celebrated throughout the Province of Mysore, and His Highness is confident that his subjects in all parts of the State will welcome the event as an occasion for public rejoicings and for tendering to His Majesty a fitting homage. His Highness is accordingly pleased to issue the following orders for the local celebrations above referred to:—

2. All Public Offices, Courts, Colleges and Schools within the State shall be closed on Tuesday the 12th December 1911, the date appointed for the Imperial Durbar.

3. All District Officers will notify this auspicious event to the public at large and to the various Municipalities in their Districts so as to enable them to make arrangements for such public rejoicings as may be deemed suitable for so memorable an occasion.

4. It is the wish of His Highness the Maharaja that some formal celebration of this unique occasion should be held not only at the Headquarters of each District, but also at the Headquarters of every Taluk.

5. In all places of worship under the State Muzrai management, specia prayers with ceremonies befitting the auspicious occasion should be offered on the 12th December 1911 for the long life and prosperity of Their Imperial Majesties. The co-operation of the managers of places of worship which are not Muzrai institutions should be invited by the District Officers with a view to their carrying out a similar programme.

6. At all District and Taluk Headquarters and Municipal Towns, arrangements should be made for the distribution of food and clothing to the poor of all classes and to the inmates of all charitable institutions, and, in particular, sports and entertainments should be provided for the children of all schools, both private and public.

7. At midday on the 12th December the Royal Proclamation, which will be read at the Imperial Durbar at Delhi and which will be communicated to the District Officers in due course, shall be read at the Headquarters of each District in English and Kanarese and in Kanarese only at the Headquarters of each Taluk by the senior Civil Officer present.

8. At the Headquarters of every District, the reading of the Proclamation should take place in a formal Durbar to be convened and arranged by the Officer reading the Proclamation. At Mysore a royal salute of 101 guns shall be fired.

9. As far as is possible, all Public Offices should be illuminated and fireworks displayed in the evening.

10. The following amounts are sanctioned from State Funds for carrying out the above object, to supplement any sums that may be raised by voluntary subscriptions and by grants from Municipal Funds.

	Rs.		Rs.
Bangalore District	4,000	Kadur District	500
Mysore District	2,250	Tumkur District	500
Shimoga District	500	Hassan District	500
Kolar District	500	Chitaldrug District	500

11. The allotments made by the District Headquarter Municipalities for the Coronation Celebration of 1903 are noted in the margin, and in case the Boards are agreeable, the same amounts will be sanctioned for the present occasion also. In the case of minor Municipalities, grants not exceeding Rs. 40 from each may be recommended.

	Rs
Bangalore City	2,000
Kolar	200
Tumkur	500
Mysore	1,500
Hassan	500
Shimoga	200
Chikmagalur	500

General Miscellaneous, dated 18th September 1911.

12. In addition to the above, a sum of Rs. 100 each for the Districts of Bangalore and Mysore and Rs. 50 each for the other Districts will be placed at the disposal of the Deputy Commissioners to meet the expenses of the special prayers to be offered in all places of worship for the long life and prosperity of Their Majesties.

13. The Deputy Commissioners are requested to submit for the information of Government as early after the celebration as may be practicable and not later than the 6th January 1912 a full report containing information on the following points:—

(1) Details of local festivities, entertainments, rejoicings, etc., in each town,
(2) the names of the members of each local committee,
(3) the number of people fed and clothed,
(4) the estimated number of people who took part in the various proceedings, including the Durbar at Headquarters,
(5) a description of the entertainments for school children and the number that took part in them,
(6) the number of places of worship in which prayers were offered, and
(7) other points of special interest, if any.

OBSERVATIONS.—In the Resolution of the Government of India No. 501-B, dated the 9th February 1892, the Governor-General in Council directed that a Committee of volunteer officers should assemble at Calcutta on the 10th February 1892, to consider and report on various important questions connected with volunteering in India. The Committee met in pursuance of this order, and their report was submitted to the Government of India on the 27th February 1892. In Government of India Resolution No. 1026-B, dated the 18th March 1892, the Governor-General in Council acknowledged the services rendered by the Committee and stated that their report would receive careful consideration. The recommendations made by the Committee are numerous, and the orders upon the report of the Committee as a whole must necessarily be delayed, but as conclusions have been arrived at on some points, the Governor-General in Council has resolved that the publication of the decisions on such matters as have been settled shall not be postponed.

RESOLUTION.—The following decisions are promulgated for information and guidance :—

Proposals made to the Committee.	*Recommendations of the Committee.*	*Decisions of the Governor-General in Council.*
Head 1—*Constitution.* No. 1. That all servants of Government be compelled to become volunteers.	The Committee consider that it is at present undesirable that the bearing of arms should be made a condition of Government service ; but they suggest that the Government of India be moved to address all Local Governments on the extreme importance of enlisting the active interest and co-operation of all heads of departments in the encouragement of volunteering among their subordinates and in the provision of sufficient facilities for the attendance of volunteers at their parades and musketry practice necessary to make them efficient.	The Local Governments to be addressed as recommended.

Proposals made to the Committee—contd. Head I—*Constitution*—contd.	*Recommendations of the Committee*—contd.	*Decisions of the Governor-General in Council*—contd.
	Information having been received by the Committee that in certain cases Government servants, who were absent on volunteer duties, were mulct of their pay for the absence, the Committee strongly recommend that no such deprivation be permitted.	
No. 2. The importance of the volunteer movement to be impressed on Local Governments and Administrations.	The Committee strongly endorse the recommendation of the Simla Volunteer Committee, which was that the necessity for the volunteer movement being encouraged should be impressed on all Local Governments as a question of Imperial policy. The Committee understand that in certain Local Administrations no support whatever is given to the volunteer movement.	Ditto.
No. 3. That the Agents of tea gardens be asked to allow Managers and their Assistants to become volunteers and attend parades and class firing.	The Committee recommend that all employers of European and Eurasian labor be strongly urged by Local Governments to encourage their Managers and Assistants to become volunteers, and to give leave liberally in order to enable them to attend volunteer duties.	Ditto.
No. 4. That preference for Government employment be given to volunteers.	Recommended that the principle of giving preference to volunteers and sons of volunteers for Government employment should be accepted by Government.	For first appointments to Government employment of Europeans or Eurasians as between themselves, the fact of the candidate being a volunteer, or the son of a volunteer, should be taken into consideration.
No. 5. Grant of leave to volunteers for volunteer purposes.	The Committee understand that the Punjab Government grant 7 days' leave during the drill season to volunteers in their employ for attending field days, one hour's leave each week for attending parade during the drill season, and one hour's leave, morning and evening, during camp week. These concessions the Committee recommend may be adopted by all Local Governments. The Committee also recommend that the necessity, on volunteer grounds, of a general weekly half-holiday be brought by Local Governments to the notice of firms and employers of labour.	Local Governments and Administrations should be informed of the practice in the Punjab in respect to the grant of leave, and it should be suggested to them that they should inform heads of departments that reasonable facilities in the way of leave should, when possible, be granted to volunteers for the purpose of attending drill, etc., so far as this can be done without unfairness to other employés.
No. 6. That the rules for the election of officers of volunteer corps be altered, officers being appointed by selection instead.	The Committee consider that the present system by which officers, except in railway corps, are elected by the corps, has worked well on the whole, and is a privilege much valued by the volunteers themselves, and that it is, therefore, undesirable that that system should be changed.	The system of election will not be changed.

Proposals made to the Committee—contd.	*Recommendations of the Committee*—contd.	*Decisions of the Governor-General in Council*—contd.
Head II—*Interior Economy and Discipline.*		
No. 1. Uniform.	The Committee recommend— (1) That the color of the working uniform of infantry corps in the plains be "khaki." (2) That the color of the working uniform of corps in the hills be khaki (serge). (3) That in the case of corps being able to afford two uniforms, one working and the other for full-dress purposes, the latter should be red. (4) That for artillery and light horse volunteer corps the color of the working uniform should be "khaki" and of the full-dress uniform (if any) blue. (5) That a date should be fixed by the Government of India, say, the 1st January 1895, for the adoption of the above. (6) That the Volunteer Clothing Regulations be amended, and a uniform pattern be laid down and made compulsory.	This proposal should be adopted. The date from which the change of uniform should take place will be 1st January 1896.
No. 2. Free provision of ammunition boots.	The Committee consider that the provision of boots is one that should be arranged out of the capitation grant.	The Governor-General in Council concurs in this recommendation.
No. 3. Mounted volunteers to be allowed to purchase horses from remount depots.	The Committee recommend that mounted volunteer corps should have the privilege of obtaining the service of remount agents for the purchase of their horses at cost price, and that mounted officers of other volunteer corps should have the same privilege.	It will be impracticable to carry out this suggestion. Remount agents, except the Presidency Remount Agent, have been abolished.
No. 6. That troopers, who pass their proficiency examination, should be entitled to wear the proficiency badge.	The Committee recommend that all volunteers who pass the proficiency course be entitled to wear the proficiency badge, irrespective of rank.	The concession is already provided for in paragraph 126, Army Regulations, India, Vol. IX, as revised by clause 188, India Army Circulars of 1890.
Head III—*Measures involving expenditure on Corps.*		
No. 9. That armouries, magazines, volunteer headquarters (institutes, etc.,) quarters for sergeant instructors, etc., be provided by the State.	The Committee recommend that Government be requested to provide a sum annually in the military budget for the provision of armouries, magazines, quarters for sergeant-instructors, and volunteer headquarters (clubs, etc.). Also that paragraph 460, Army Regulations, India, Volume IX, as amended by clause 60, India Army Circulars of 1887, be re-written, so as to prevent objections against expenditure of the capitation grant being urged by the Audit Department, as is now frequently the case.	Approved. A sum of Rs. 30,000 will be granted from the estimates of 1892-93 on this account.

Proposals made to the Committee—contd.	*Recommendations of the Committee*—contd.	*Decisions of the Governor-General in Council*—contd.
Head III—*Measures involving expenditure on Corps*—contd.		
No. 11. Allowances for expenses connected with volunteer camps and allowances for field days.	**The Committee consider that the expenses of entertaining an inspecting officer and of providing refreshments for a corps on field days should certainly not fall upon the officers, nor entirely on the capitation fund. At present it is allowed to come on the capitation fund by the application of clause II, paragraph 460, Army Regulations, India, Volume IX, as amended by India Army Circulars, clause 60, of 30th April 1887.** **To assist corps, the Committee propose that the following allowances be specially made by Government:—** **The extension of India Army Circulars, clause 206, of 1890, "Camps of Exercise," to ordinary field days, *i.e.*, a money-allowance of Re. 1 for each officer, non-commissioned officer, and man of any corps that has not been detailed for a camp of exercise in that particular year. These allowances to be granted for not more than seven field days in any one year, and to be supported by a certificate of the members attending on each occasion, signed by the commanding officer. It is estimated that the cost of this would come to about Rs. 20,000 a year.**	**Approved. The sum of Rs. 20,000 will be granted from the estimates of 1892-93 for distribution among volunteer corps for the purpose mentioned.**
No. 12. Grants for camps of exercise.	**The Committee recommend that the concession to volunteer camps, as per clause 206, India Army Circulars of 1890, be raised from Rs. 15,000 to Rs. 60,000 per annum, and that the money be allowed rateably on the strength of each corps that submits an application, the minimum amount allowed per man remaining as heretofore.** **Also recommended that the duration of camps of exercise be extended from five to six days.** **Also that in the Circular quoted above, clause III, the words "or 50 per cent of the corps" be inserted after the words "a hundred volunteers."**	**Approved. An additional sum of Rs. 45,000 will be granted from the estimates of 1892-93.**

The Governor-General in Council invites the earnest attention of all Local Governments and Administrations, Heads of Departments and Government officials generally to the measures above sanctioned, and directs that they be carefully carried out. His Excellency in Council also trusts that all non-official employers of European and Eurasian labour, such as Managers of tea gardens and other commercial undertakings, will heartily co-operate with Government officials in giving effect to the wishes of the Government of India in the above matters with regard to their employès, and will also support and encourage volunteering as far as it may be in their power to do so.

ORDER.—**Ordered that a copy of this Resolution be forwarded to the Departments of the Government of India, to all Local Governments and Administrations, to the Adjutant-General in India, and to all departments under the Military Department of the Government of India; to the President of the late Volunteer Committee, and to the Secretaries to the Bengal Chamber of Commerce and Calcutta Trades' Association.**

4. *Number of persons to be provided for.*—According to Section 20 of the Famine Code, provision has to be made for the relief of 706,426 persons for six months, *i.e.*, for 127,156,680 units.

5. *Adequacy of the programmes.*—It will be seen from the figures shown in the following statement that, taking sanctioned programmes alone, provision has been made for 74·3 per cent of the total number of units of famine labour required to be provided for under the Code. The percentage is lowest in the Kolar District, being 26·4. The Executive Engineer of Tumkur District promises to bring many more works under the "sanctioned programme" as early as possible but states that "to deal with the projects of these, more satisfactorily and in sufficient number, a separate establishment consisting of a draughtsman and a few Sub-overseers at least for some time is very necessary, as the present staff has not been able to devote much time owing to rather heavy current work and works of an urgent nature."

Taking the sanctioned and the emergency programmes together, ample provision exists in all the districts.

Public Works, dated 6th September 1911.

6. The number of A class works in the Village Relief programmes of the Kolar, Tumkur, Chitaldrug and Shimoga Districts is very small, being 4, 6, 36 and 37 out of the total of 1,992, 1,122, 298 and 442 works respectively It is hoped that the Deputy Commissioners of these districts will try to submit, for approval in the Public Works Department, plans for as many works as possible and bring them under the sanctioned programme before the next year.

7. *Defects in the programmes.*—The following are some of the defects noticed :—

Public Works.

(1) Three small works, *viz*, No. 2 in Chamrajnagar, No. 1 in Seringapatam and No. 5 in Nagamangala, are wrongly shown under Part I (large works) instead of under Part II.

(2) No. 1 in Nagamangala (a large work) is wrongly classed as (ii) (*b*) instead of as (ii) (*a*).

(3) Number 1 in Krishnarajpete, No 10 in Nagamangala and No. 48 in Srinivaspur are classed as (iii) (*a*), but wrongly shown under "*Emergency programme.*" No. 65 in Srinivaspur and No. 90 in Dodballapur are classed as (iii) (*c*) but wrongly shown under "Sanctioned programme"

8. *Number of persons available for famine duty.*—The following statement shows the number of persons available for famine duty in each district as shown in the lists appended to the programmes for the two years 1911-10. No such list was received with the Village Works programme of the Bangalore District and the list received with the Public Works programme of the Kadur District does not give the actual number

District	1911	1910
Bangalore	105	88
Kolar	369	364
Tumkur	1,249	628
Chitaldrug . .	168	192
Mysore .	817	984
Hassan	244	275
Kadur	26	34
Shimoga	775	784
Total .	3,752	3,306

9. In this connection reference is invited to remarks made in the review of 1909 on the importance of Deputy Commissioners explaining to the members of the Local Fund Boards and Unions the scope and object of Famine Programmes, the advisability of landholders settling schemes for improvements of lands, etc, (private and public), to be carried out with their own funds or loans from Government which would not only provide work for villagers near their homes during times of distress, but will also be beneficial to the village and last but not least, enable the capable men among them to volunteer for famine duty.

10. The Deputy Commissioners of the Tumkur and Kadur Districts state that the programmes were placed before the District and Taluk Boards and duly approved. The Deputy Commissioner of the Chitaldrug District states that the Government review on the programme for 1910 having been received rather late, there was not sufficient time for the Amildars to give effect to the suggestions of the Revenue Commissioner therein contained. The Deputy Commissioners of other districts do not refer to the subject at all.

11. Forms Nos III, IV and IV A are herewith submitted

No. 817-60—8164-77, dated Bangalore, 6th September 1911.

Order thereon.—The following points in the Revenue Commissioner's review call for notice :—

Para 1. In the majority of cases, the programmes were not submitted by the prescribed date. The importance of their punctual submission should be brought to the notice of the officers concerned.

Para 2. To make up the deficiency under the sanctioned programme in the Kolar District, the Superintending Engineer, Northern Circle, was asked last year

to submit estimates for the 28 works entered as good and useful ones, in the emergency programme of that year, and a report of the action taken in the matter. The report has not yet been received and should be expedited.

The Executive Engineer, Tumkur Division, may apply separately through the Superintending Engineer for the additional establishment required by him to increase the number of works under the sanctioned programme.

3. *Para 6.* In the last review, the Deputy Commissioners of Kolar, Tumkur, Chitaldrug and Shimoga Districts were requested to take prompt action to make up the deficiency in the number of A class works in their Village Relief programmes. Since then, the number of works added to the sanctioned lists in the Chitaldrug, Shimoga and Tumkur Districts have been 7, 4 and 1 respectively, and in the Kolar District, none. The progress made in this direction is thus not much. The Deputy Commissioners concerned are again requested to give their special attention to the matter and show a substantial improvement before their next programmes are due.

4. *Para 7.* The defects in the programmes pointed out by the Revenue Commissioner should be rectified by the officers concerned and the correct classification adopted in the programmes to be submitted for next year.

The Public Works programme of the Chitaldrug District has been prepared in manuscript. A printed form could easily have been obtained from the Stationery Depot by indent.

With the Mysore Village Works programme have been submitted a number of work estimates. These estimates should be disposed of by the Deputy Commissioner himself in the usual manner.

5. *Para 8.* The attention of the Deputy Commissioner, Bangalore District, is invited to the omission to furnish the list of persons available for famine duty, and of the Executive Engineer, Kadur Division, to the defect in the list furnished by him.

6. *Paras 9 and 10.* The attention of the Deputy Commissioners is again invited to the remarks of the Revenue Commissioner regarding the importance of their explaining to members of Local Fund Boards and Unions the scope and object of the Famine programmes. The effect given so far to the suggestions in this respect, which are repeated year after year, is not encouraging. Five out of the eight Deputy Commissioners have entirely failed to report on the subject, though they were definitely asked to do so in para 6 of Government Order No. 832-45—6828-41, dated the 3rd August 1910. Government hope that this omission will not recur in future.

7. With reference to Section 32 of the Famine Code, the following famine tools are reported to be held in reserve to meet emergent requirements:—

	In the General Stores at Bangalore	In the districts	Total
	Number	Number	Number
Axes, felling	557	195	752
Axes, pick	8,030	10,357	18,147
Bill-hooks	1,211	1,670	2,881
Buckets, galvanized	571	128	699
Crowbars, iron	1,713	3,256	4,969
Hammers, sledge	150	50	200
Hammers, stone-breaking	16,751	3,207	19,960
Mamuties	10,264	13,603	23,867
Pans, *mortar*	1,073	1 716	2,788
Pots, iron	175	325	500
Punners, iron	3,035	900	3,935
Saws, cross-cut	25	...	25
Saws, hand	155	20	175
Tampers, iron	3,478	807	4,285

The stock more than covers the prescribed limit. The Executive Engineer, Water-Supply and Stores Division, will ascertain and report on the present condition of the tools and how those in the districts are distributed.

Proceedings of the Government of His Highness the Maharaja of Mysore, Public Works, dated 21st September 1911.

No. 914-54—8724-64, DATED BANGALORE, 21ST SEPTEMBER 1911.

ORDER.—The absence of a clear understanding of the conditions under which electric light is given to Government buildings assigned as free quarters has led to unnecessary correspondence as well as delay in the disposal of applications for the supply of lighting. It is therefore necessary to reiterate the orders issued on the subject in P. W. Circular No. 9, dated the 5th November 1908.

2. Applications for the installation of electric light in Government buildings, occupied by officers as free quarters, will be considered on their agreeing in writing to pay (1) interest and depreciation charges at 5 per cent of the cost of the extension of the line to their quarters and of interior fittings; (2) the amount billed for by the Electrical Department for the power consumed; and (3) the cost of renewing lamps, replacing bulbs, and other similar items.

3. The same rule applies to all residential buildings, whether rented or free, for which electric light had been given prior to the issue of Circular No. 9 of the 5th November 1908.
